CONNECTIVITY | DDoS | RESILIENCE November 19 & 20, 2024 a LU-CIX event hosted at the Luxembourg Chamber of Commerce

The Luxembourg Internet Days event has become the unmissable occasion for ICT, IT & OT professionals to meet, learn and share in a technical and pragmatic way with sector experts and trendsetters on the Internet related challenges they face.

Designed around keynotes, interactive sessions and debates, alongside a thriving exhibition area, the event attracts more than 1.100 professionals from Luxembourg and Europe, and notably in 2024 from the event partner country, **Romania**.

Connectivity, Network Security & Resilience will be the focus topics to help professional Internet operators and users become **vigilant and reactive** to counteract all types of attacks, with the most innovative volumetric or application DDoS ones targeting **Critical Infrastructures, local or regional authorities & municipalities, and Industry** among other sectors.

Experts and professionals from Romania will be especially invited to share this momentum in Luxembourg to strengthen business relationships when it comes to Security and Resilience of the Internet.

The **LUNOG7 Conference** will once again gather the local professional ecosystem interested in Network Operations around international expert speakers for interactive upskilling sessions.

Final-year students are more than welcome for an immersion into their future professional world. They will have the opportunity to experience workshops, listen to inspiring business cases, and meet with potential future employers.

Join us in Luxembourg, the trusted ICT hub in the heart of Europe and enjoy an enriching gathering!

Frédérique Ulrich
Event organiser &
Director of LU-CIX ASBL

Claude Demuth
Chairman of LU-CIX ASBL

LU-CIX is proud to present the 11th edition of the Luxembourg Internet Days, the cross-industry event, organised from the ICT sector in Luxembourg for the European ICT & OT professionals, to discuss Internet related challenges and to help increase awareness and build skills.

With its unique and successful design, which prioritises technics and pragmatism, it has become a “must” event for over 1,100 professional visitors and experts to feel the pulse of the ICT, IT and OT sectors in Luxembourg and beyond.

CONNECTIVITY | DDoS | RESILIENCE FOR CRITICAL INFRASTRUCTURES, INDUSTRY AND MUNICIPALITIES

- Experts' presentations
- Panel discussions
- 15-min business case presentations ⁽¹⁾
- An Expo with up to 45 booths ⁽¹⁾
- 45-min interactive workshops
- A professional “speed-dating” tool ⁽²⁾
- A networking evening, the “Sunset Eve” ⁽³⁾

Several side-events:

LUNOG7 Conference

The LUNOG7 Conference will be held in partnership with RIPE NCC and aims to gather the local Network Operators and professionals interested in deep-dive technical topics to help them raise the bar with high-level technical sharing.

Connectivity roadmaps for Luxembourg municipalities – The Berdorf case by MyConnectivity

Discover MyConnectivity's efforts to connecting the last 5% of Luxembourg with very-high-capacity-networks in a timely and a cost-efficient manner. After a first pilot project for the municipality of Berdorf, MyConnectivity is scaling to the rest of Luxembourg.

Atelier Digital Skills & Jobs

The Digital Skills and Jobs Coalition and the Department of Media, Connectivity and Digital Policy from the Ministry of State invites BTS students and experts from the IT and digital world to interact, reflect and exchange on new skills and jobs.

Programme available online as from October at www.luxembourg-internet-days.com.

PARTNER COUNTRY: ROMANIA

Romania is the 3rd fastest growing economy in the EU in 2024!

With its strong economic fundamentals, cutting-edge technology programs, highly skilled IT workforce, excellent infrastructure, connectivity, and business conditions, this major regional hub of specialized Tech Talent is an exceptional software and telecom industries partner.

Its capital, Bucharest, hosts among others, the newly established European Cybersecurity Industrial, Technology and Research Centre, the European Cybersecurity Competence Centre (E3C).

Many of these points were behind the choice to put Romania in the spotlight and strengthen crossborder collaborations at the Luxembourg Internet Days 2024.

Romania Luxembourg Business Forum (ROMLUX), playing a pivotal role in enhancing collaboration and innovation between Romania and Luxembourg's business communities, will strongly contribute to the success of this edition in bringing key innovation, network, High-Tech IT and ICT players and speakers from Romania to strengthen bridges and possibilities for new collaborations between our two countries in Internet related matters.

Exclusive for Romania-based entities joining ⁽¹⁾ & ⁽³⁾:

Entities based in Romania with a strong interest in Network Security, Resistance and Resilience to cyber attacks, expertise, or solutions; or that look for partnerships with Luxembourg-based players in these domains are welcome to join the event. They can benefit from a two-day booth at a special price as well as entries to the Sunset Eve networking evening (on November 19).
